Tense Worksheet For Class 1 With Answers

Before going directly into the tense worksheet for class 1, it might be a good idea first to understand **What is Tense in brief?**

Tenses (Present, Past & Future)

Tense is a grammatical concept that refers to the time frame in which an action or event takes place. In English, there are three main tenses: past, present, and future. Here are some simple examples.

1. **Past tense:** This tense is used to describe actions or events that have already happened.
Example: Yesterday, I played with my friends.
2. **Present tense:** This tense is used to describe actions or events that are currently happening or ongoing.
Example: I am playing with my friends now.
3. **Future tense:** This tense is used to describe actions or events that will happen in the future.
Example: Tomorrow, I will play with my friends.

Sentence Formation

The formation of sentences in English generally follows a *subject-verb-object structure*, although other sentence structures are also possible.

Here is a brief overview of sentence formation for the three main tenses in English.

1. **Past tense:** To form a sentence in the past tense, use the simple past tense of the verb. Add -ed to regular verbs, or use the second form of irregular verbs. The basic sentence structure is subject + past tense verb + object.
For example: “She played tennis yesterday.”
2. **Present tense:** To form a sentence in the present tense, use the base form of the verb. The basic sentence structure is subject + present tense verb + object.
For example: “I eat breakfast every morning.”
3. **Future tense:** To form a sentence in the future tense, use “will” + the base form of the verb, or use “be going to” + the base form of the verb. The basic sentence structure is subject + future tense verb + object.
For example: “They will travel to Paris next week.”
